ART DEPARTMENT, 1874. The illustrations of THE ALDINE have won world-wide reputation, and in the art centres. Europe it is an admitted fact that its wood cu are examples of the highest perfection ever a Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained. The common prejudice in favor of "steel plates" its rapidly yielding to a more educated and discriminating tasts which recognizes the advantages of superior artistic quality with greater facility of production. The wood-cuts of THE ALDIER possess all the delicacy and elaborate finish of the most costly steel plate, while they afford a better rendering of the artist's original.

To fully realize the wonderful work which THE ALDIER is doing for the cause of art culture, in America, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters.

In addition to designs by the members of the National Academy, and other noted American artists, The Audiers will reproduce examples of the best foreign masters, selected with a view to

the best foreign masters, selected with a view to the highest artistic success and greatest general interest. Thus the subscriber to TER ALDHES will, at a trilling cost, enjoy in his own home the pleasures and refining influences of true art. The quarterly tinted plates for 1874 will be by Thos. Moras and J. D. Woodward.

The Christmas issue for 1878 will contain spedal designs appropriate to the season, by our est artists, and will surpass in attractions any. It is precocessors.

Premium for 1874. Every subscriber to THE ALDINE for the year 74 will receive a pair of chromos. The origi al pictures were painted in oil for the publish as of The Aldine, by Thomas Moran, whose nal.pictures were painted in oil for the publishers of The ALDENE, by Thomas Moran, whose great Colorado picture was purchased by Congress of the ten thousand, dollars. The subjects were chosen to represent "The East" and "The West." One is a view in the White Mountains, New Hampahire; the other gives the cliffs of Green River, Wyombig Territory, The difference in the nature of the scenes themselves is a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates, and are in size (18x16) and appearance exact facsimiles of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscribers of The ALDENE WAS a bold but peculiarly happy idea, and its successful realization is attested by the following testimoulal, over the signature of Mr. Moran himself: NEWARK, N. J., Sept. 20th, 1878.

reputation, based on its intrinsic virtues and sustained by its remarkable cures. So mild as to be safe and beneficial to So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities or diseases that have lurked in the system for years soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scrofulous diseases, Ulcera, Ernstions, and eruptive disorders of Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Bolls, the skin, Tumors, Blotches, Bolls, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Ldver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhoen, when they are manifestations of the scrotulous poisons.

It is an excellent restorer of health and strength in the Spring. By renew-ing the appetite and vigor of the diges-tive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it soil white cambric, and yet lasts
